TUESDAY, JULY 28, 1878.

REPUBLICAN CONGRESSIONAL CONVENTION.

The Convention of the Union Republican party of the First Congressional District of West Virginia, will be held in the town of Moundarille, Marshall county, August 22d, 1878, for the purpose of nominating a candidate for Congress, and also for the transacting of such other business as my come before the Convention. The Union Republican party of the District is requested to appoint delegates to the Convention from the Counties compelling the District at such time and place as may suit the convention from the Counted several Counties.

By order of the Republican Executive Commit-tee of the Fi at Congressional District. GEO. EDWARDS, Chairman.

The Nationals in Convention at

The Jefferson county Nationals met in Convention on Saturday at Steubenville. John Campbell presided. The exercises with songs. Mesers. Crewson, Litton, Hebron, Holman and Wigginton were appointed delegates to the State and Congressional Conventions. The in Staubenville next Satur
Tith). The nomination of the ticket was postponed to a time. The conventional occasion to have been rather a merry one g by the fact that the singing of materd largely into the exercises, immittee presented 14 resolutions, thich were adopted. They present new, unless the third and he resolutions be considered as its substance of which we do not to have seen gotten up in the latter was something work, the substance of which we do not to have seen gotten up in the latter was something work, the substance of which we do not to have seen gotten up in the latter will be about the latter was something work, the substance of which we do not to have seen gotten up in the latter was something worg, the surviving inmates had matters investigated.

As the season advances and the evenings one still more common. Many have come still more common. Many have legated the porting of lamps until fall the hope that meantime the person died of some contegious diesea and was buried in hat the person died of some contegious diesea and was buried in hat the person died of some contegious diesea and was buried in hat the person died of some contegious diesea and was buried in hat the person died of some contegious diesea and was buried in h former commences its sessions in Columbus to-day, and the latter will be held in Staubenville next Satur-day (27th). The nomination of the fature time. The conventional occasion seems to have been rather a merry one, judging by the fact that the singing of songs entered largely into the exercises. The Committee presented 14 resolutions, all of which were adopted. They present nothing new, unless the third and eleventh resolutions be considered as "gold and silver should be demonstized, ple, and severly punished, but no officer should be removed because of conscientious discharge of duties."

Two horse thieves were hunted down upon the Arkansas River, near the town of Buena Vista, the other morning, and refusing to surrender, were shot. One of them was found to be a woman of twenty earlies and for the better understanding of them was found to be a woman of twenty two, small and slight of build, but apparently and because of the wast supply will not equal the demand for American cotton, because of its auperiority, and because of the decrease in the cultivation of the plant in other countries. We have now a monopoly of the product, and our markets for the staple may be found in all parts of the world. Under a reviving condition of trade we may expect to ship abroad nearly three fourths of the condition of trade we may expect to ship abroad nearly three fourths of the condition of trade we may expect to ship abroad nearly three fourths of the condition of trade we may expect to ship abroad nearly three fourths of the condition of trade we may expect to ship abroad nearly three fourths of the condition of trade we may expect to ship abroad nearly three fourths of the condition of trade we may expect to ship abroad nearly three fourths of the condition of trade we may expect to ship abroad nearly three fourths of the condition of trade we may expect to ship abroad nearly three fourths of the condition of trade we may expect to ship abroad nearly three fourths of the condition of trade we may expect to ship abroad nearly three fourths of the condition of

of bullion from the Bonansa mines which completed the mighty aggregate of \$100, 000,000 shipped from the mines. The exact figures were, from the California \$40.517.552 10, and from the Consolidated Virginia \$59,493,532 85-a total of \$100, 011,085 05. From this sum the California has paid twenty-six dividends, aggre-gating \$28,080,000, and the Consolidated Virginia has paid forty-six dividends, aggregating \$41,040,000, making a total of \$69,140,000. There have been since the last dividend was declared shipments

amounting to \$670,655 98, which will swell the dividends \$440,000, leaving the full amount of dividends \$79,580,000, or

full amount of dividends \$79,880,000, or within a fraction of 70 per centum of the whole grose product of the mines.

These are tremendous figures, and are altogether unprecedented in mining. Turn them about, or analyze them in any way, and the result is magnificent. The yield is equal to one-sixteenth of the interest-bearing portion of the national debt; it is equal to the value of all the property of all kinds in an average city and to district and to district the moderate estimate places of 125,000 inhabitants; it is more than

deb; it is equal to the value of all the property of all kinds in an average city of 125,000 inhabitant; it is more than the value of all the real and personal property of this State, and the comparisons might be extended indefinitely. This amount has been taken from a intie spot of ground less than 800 feet in length, and from 60 to 300 feet in width. And the marvellous deposit is still, yielding princely aums. As one looks upon the figures, he finds himself wondering why there are any poor in this world, and why, so long as gold and silver will purchase any luxury and all reasonable service, there are so many who are in pecuniary distress.

The thought is cured, however, by reflecting that in all the minung of the world no other such auccers was ever won before. For five years, from 1867 to 1872, a company worked the ground all the time, expending \$101,340 41 upon the property without realising one cent in return. At last it was forced to give way, and on the 11th of January, 1872, the proparty fell to the present management. These men expended \$277,150 12 on the property before realizing one cent in return. At last it was forced to give way, and on the 11th of January, 1872, the property before realizing one cent in return, the management of the continued altogether eight years, and which would have been abandoned in any other country but this, and by any other class of men in the world except Nevada miners. Call trjudgment, sagacity, faith, plack for what you will—it is a faculty, or rather a combination of faculties, which exist nowhere else on earth.

The old stock (only 108,000 shares for cach mine) was worth but two dollars is estimated of the first cache in the engine house instead of earth.

The lod stock (only 108,000 shares for cach mine) was worth but two dollars is estimated of the first cache in the engine house instead of each miner was a substant of the first cache in the city, during that the earth of the first cache in the city, during that the earth of the part of the favorite in the city, d

bard to get. One firm, which a year ago had work for fifteen men, now employ except Nevada miners. Call it judgment, sagacity, faith, pluck or what you will—it is a faculty, or rather a combination of faculties, which exist nowhere else on earth.

The old stock (only 108,000 shares for each mine) was worth but two dollars per share, and some who perforce accepted it for services rendered bewailed their hard fortuine. Since then it had made them richer than they ever dreamed obeing, and their word is held in great estimated of their shrewdness in purchasing bounnas atocks when they were low. At last in a drift which was run from the Goold and Curry shaft through the Best and Belcher mine into the Consolidated Virginia, the crest of the bonats was cut, explorations followed, and the more work that was done the more ore was exposed, until at length, in the sautumn of 1874, it was fully revealed that an ore deposit had been discovered that are exceeded in extent and richness anything ever found before in a mine. On Ostober 18, 1873, the first shipment of ballion from the Consolidated Virginis was made. That was three months less than far years ago, and now the product, as we have shown, has exceeded \$100, 000,000, simoet seven-tenths of which have been in profits. Of the whole amount about forty five per cent units was made. That was three months less than far years ago, and now the product, as we have shown, has exceeded \$100, 000,000, simoet seven-tenths of which have been in profits. Of the whole amount about forty five per cent may be a supplied that the property in the summary of the same of the consolidated Virginis was made. That was three months less than far years ago, and now the product, as we have shown, has exceeded \$100, 000,000, simoet seven-tenths of which have been in profits. Of the whole amount about forty five per centum silver.

—We yield City Enterprise, July 6.

PERSONS AND THINGS.

A Chicago young man having asked t excused from jury service in a murder trial, through fear that he would lose his position if he served, the judge declared that he would fine and imprison for contempt any person who should discharge an employe for such a reason.

A lady at Binghamton while looking ver her husband's clothes recently disover her husband's clothes recently dis-covered a letter which she had given him to post eleven years ago. The letter was addressed to a lady friend, and the non-arrival was the cause of an estrangement between the two families ever sin

The fact becoming generally known that two-thirds of those who died of heat in St. Louis used alcoholic or mait liquors, materially decreased the trade in those stimulants in that city. Sales of beer fell off twenty per cent and those of strong drinks fifty per cent.

and a pocketbook in which were five gold dollars of the issue of 1853. The bury-ing of the money with the body is ex-

such, the substance of which we do not surviving inmates had matters investigated recollect to have seen gotten up in the ted, the house was found to be standing same shape. The former demands that upon a cesspool, immense and noisome

An Illinois man was struck speechles and all bank issues suppressed." The latter announces that "unfaithful officers of his wife. How different it would have ought to be removed by a vote of the peo- been had the case been reversed. Speechless, indeed! she would have kept on talking until the second husband told her if she ever mentioned that man's name again he would cut her down to one bon-net a year.

Cincinnati Commercial.

By actual count twenty-seven of the fifty-one stores open on Fifth street be-By actual count twenty-even of the corrors and the tween Central avenue and Race, at half to the month of July, the mean tempermant S o'clock last night, were lighted by store of which was 84, being higher than past 8 o'clock last night, were lighted by lamps. This among business houses, and on a street where they burn gas for the name of the thing, if for no other reason, would but a short time ago have been considered a necessity! Along Central a venue the proportion of business places now lighted by lamp is much greater. On Vine street also lamps are in use at least in two business places out of three. Over the canal the proportion is much greater than that, a gas light having become in that region almost a rarity. So in other districts remote from the business where taken at his present residence of the thermometric transfer of the contract of the c past 8 o'clock last night, were lighted by greater than that, a gas light having be-come in that region almost a rarity. So in other districts remote from the busi-

used, accidents are unknown. The lamps, according to those using them whom our reporter visited, are easily kept in order. A very few minutes each day suffices to put half a dozen of them in order.

Oil varies in price from twenty to forty cents a gallon. A safe headlight oil, or one that is claimed to be entirely safe, can be had for twenty-two cents a gallon. A better quality, however, is not, in the end, much more expensive. It is absolutely safe, and a given amount burislonger than the cheaper grades. The question of whether oil is safe or not is one that is quirkly and easily decided. Pour a small quantity of the oil into an open dish and apply a lighted match to it. If the oil is of a proper test, the flame of the match will be put out as quickly as though it were thrown into water. The lamp explosions which occasionally occur result from the use of coal oil, and that of an inferior quality. The head-light oil is but little, if any, more expensive, and is generally absolutely safe.

It is a trifle amusing to observe the russe of some of the families on the "tony" streets to hide the fact that they have come down to the use of lames. A lady

drinks fifty per cent.

A pretty girl stepped into a shop where her spruce young man stood behind the counter. In order to remain as long as possible she cheapened everything, and at last she said, "I believe you think I sm cheating you." "Oh, no," said the young-ster, "to me you are always fair." "Well," whispered the lady, blushing, "I would not stay so long bargaining if you were not so dear."

Men who were digging in Philadelphia on Tuesday, where a Potter's Field once was, dug up a coffin containing a skeleton and a pocketbook in which were five gold dollars of the issue of 1853. The burying of the money with the body is exing served the server in the server in

Dr. George Engelmann, er., has for forty-two years, that is, since 1836, kept a inute record of the temperature and the weather. These records fill several large manuscript volumes, and contain a vast amount of valuable meteorological statis-tics. A Republican reporter called on the Doctor yesterday for the purpose of getting some information in regard to high temperature in former years, which the

a monopoly of the product, and our markets for the staple may be found in all parts of the world. Under a reviving condition of trade we may expect to ship abroad nearly three-fourths of this crop at an average price of ten cents a pound. This money will pour into the Southern States, and make the planters there as rich as the farmers in the West, who are now selling their cereals as fast as they can get them ready for shipment. The East only lags behind because of the slow receperation of manufacturers, but there are signa of life in industrial circles, and by the opening of surfum business of all kinds ought to be brisk.

The Bonnara Mines of Nevada.

On Tuesday last there was a shipment of bullion from the Bonaras mines which the mapples of the minest agreement of Stide of the stap of the rights when they sak for them.
